This rate replaces GS-10.

APPLICABILITY

Applicable to commercial, small industrial, public and three-phase farm members located in areas served by DS&O who do not qualify for service under other DS&O rate schedules.

CHARACTER OF SERVICE

Single-phase and three-phase where available, AC, 60 cycles, at available voltages.

RATE

Availability Charge	✓\$50.00 per month
Energy Charge (June – September)	✓\$.1015 per kWh
Energy Charge (all other months)	\$.0915 per kWh
Power Cost Adjustment (PCA)	TBD

MINIMUM MONTHLY BILL

The minimum monthly bill shall be the highest of the following:

- Availability Charge; or
- A charge of \$1.00 per kVA of installed transformer nameplate capacity, if the service is three-phase.

SEASONAL SERVICE

Members requiring this service for seasonal usage shall be required to pay a monthly minimum each of the 12 months, as determined in accordance with the foregoing section.

TEMPORARY SERVICE

Temporary service shall be supplied in accordance with the foregoing rate. The member shall pay the total cost of connecting and disconnecting service, less the value of materials returned to stock. DS&O may require a deposit, in advance, of the full amount of the estimated bill for service, including the cost of connection and disconnection.

POWER FACTOR ADJUSTMENT

If the member's power factor is found by test or by power factor metering to be less than 95% lagging, then the account shall be transferred to the General Service - Demand rate schedule.
